

Liquid Freezer AM4-Kit

FREE AM4 KIT FOR LIQUID FREEZER AVAILABLE AT ARCTIC SUPPORT

Retention module allows to upgrade all-in-one-water coolers to AMD's Ryzen AM4 socket

For the all-in-one water coolers Liquid Freezer 120, Liquid Freezer 240 and Liquid Freezer 360, ARCTIC now offers a retention ring for the new AMD Ryzen processors with AM4 socket. Therefore all already acquired Liquid Freezers can be upgraded with the AM4 kit. The retention module can be ordered directly from ARCTIC support (eng@support.arctic.ac) and is free of charge upon presentation of the invoice copy.

The bulk of our CPU-coolers, including the new Freezer 33 series, is already compatible to the AM4-socket and needs no further adaption. An overview is available on our [website](#).

15 Years of Expertise

ARCTIC does not only play in the top league of the cooling specialists ever since, ARCTIC initiated the trend towards quiet cooling systems for desktop PCs and left a distinct mark. In 2001 the Swiss engineer and company founder Magnus Huber has determined to fight against loud computers – today, the still privately-owned company with locations in Germany, Hong Kong and the USA offers one of the world's largest ranges of CPU and GPU coolers. Maximum compatibility, first-class performance and lowest volume convince enthusiasts in over 45 countries around the globe. With the competence of an unique expert knowledge from 15 years of (pc) noise minimization ARCTIC is building out its portfolio through high-quality sound products and office equipment.
