

A Must-Have for Every Desk!

Z1-3D

Monitor Arm for 3D-Flexibility

Z2-3D

Dual Monitor Arm for 3D-Flexibility

Experience a completely new sense of work at your screen – with the first monitor arms for 3D flexibility from ARCTIC.

To be honest: The new Z1-3D and Z2-3D do not automatically make everyday work more fun – but what is certain that it clearly gains flexibility and efficiency with the full-motion monitor arms.

Thanks to the step-less gas-lift technology, your monitor can be easily and smoothly adjusted. On top of the standard rotation, swivel and tilt, the 3D-flexibility allows you to move your monitor in any direction and provides 360° freedom.

Full motion monitor holder with gas lift arm for step-less alignment: swivel up to 180 °, +/- 45 ° tilt and 360 ° rotation

With very little effort you get full vision on all important processes and easily interact with your colleagues. Through ideal alignment according to your individual eye level you do your health a favour as well, avoid neck pain and improve your ergonomic seating position.

Practical: At the four USB 3.0 ports in the foot of the monitor arms you can easily connect your mouse, USB stick or keyboard and even charge your smartphone. Concurrent the compact footprint creates a lot of space to fully exploit your workspace. Interfering clutter is – thanks to integrated cable management – a thing of the past.

Quick Facts Z1-3D single & Z2-3D dual monitor arm
