

Just in time for the summer season there is a new sports headphone in the range of ARCTIC products. Like the predecessor the [P324 BT \(Gen 2\)](#) features a specific focus on active music fans needs.

Battery charge problems which lead to recall of the first P324 BT generation have been identified as a software error and could be completely dispelled in the second generation.

Customers who have a P324 BT of the first generation that doesn't charge may replace the defective headphone for a new P324 BT (Gen 2). It is sufficient to write an email at eng@support.arctic.ac, then a return label is sent out.

Washable & sweat resistant: The P324 BT (Gen 2) does everything

For real power in sports you need music. The P324 BT (Gen 2) Bluetooth headset gives you the necessary motivation and accompanies its wearer even through sweat-inducing workouts.

If you are jogging on the beach or exercising in the gym - ultra light and equipped with a comfortable neckband the [P324 BT \(Gen 2\)](#) ensures you the perfect fit. Without compromises the sports Bluetooth headset does everything and gives ultimate mobility.

Smaller contaminations and even heavy perspiration cannot adversely affect the Bluetooth headset. The exchangeable ear pads can be easily washed and are just as new after cleaning.

In addition to these practical features you don't have to make any cutbacks in the sound quality that exceeds expectation within this price range.

Through the foldable headband the stylish headset goes comfortably along everywhere and with 20 hours of battery life it is ready even for the greatest challenges.

QUICK FACTS P324 BT Sports headphones

- Extra lightweight on-ear design with removable and washable ear pads
- Built-in microphone
- 20 hours of playback time
- Foldable design for safe and space efficient transport in a chic hard case
